

American Association
for Aerosol Research

AAAR 40th ANNUAL CONFERENCE

October 3–7, 2022 • Raleigh Convention Center • Raleigh, NC

Thomas T. Mercer Joint Prize

2022 Recipient of the Thomas T. Mercer Joint Prize

David Cipolla

David Cipolla is the Vice President of Research at Insméd Inc. (Bridgewater, New Jersey). David is currently part of a team developing novel, targeted therapies to help serve the critical unmet needs of patients battling serious rare diseases.

“David has been working for over 30 years in research and development with inhaled aerosols. He always had a focus on the development of formulation and drug delivery technologies to support pharmaceutical product development.”

“David was instrumental in the development of the methodology to characterize and deliver inhaled recombinant human deoxyribonuclease, which was approved to treat cystic fibrosis in 1993.”

“His recent research with inhaled liposomal drug carriers as sustained release vehicles, and his long-standing efforts with biological compounds, has advanced the science of inhaled biologics and complex dosage forms.”
