Abstracts Due: Jan 26, 2026

ABOUT

APT2026 brings together researchers, innovators, deep-tech start-up founders/entrepreneurs and industry leaders to advance the role of Aerosol & Particle Technology (APT) in sustainable and commercial applications

TOPICS

The conference will feature oral and poster presentations, focused panel discussions and a lively exhibition showcasing technologies and solutions along three tracks:

- **Fundamentals of APT**
- **High Value Applications of APT**
- **Venturing in APT**

Organized by:

- Oliver Bischof (Aachen)
- George Biskos (Nicosia)
- Jose L. Castillo (Madrid)
- Knut Deppert (Lund)
- Arantzazu Eiguren (Berkeley)
- Pedro Garcia-Ybarra (Madrid)
- George Kelesidis (Delft)
- Athanasios G. Konstandopoulos (Thessaloniki)
- Maria Messing (Gothenburg)
- Rozina E. Metallinou (Thessaloniki)
- Sotiris E. Pratsinis (Zurich)
